Declaration of Compliance

Producer:

TECHNISTONE, a.s., Bratří Štefanů 1070, 500 03 Hradec Králové declares and acknowledges that the product:

ENGINEERED STONE TECHNISTONE®

- slabs and cut-to-size products for vanity and kitchen tops

meets the standard EN 15388, and the company TECHNISTONE, a.s. took steps for meeting the compliance of all mentioned products on market by which the technical requirements and the basic requirements of the standard EN 15388 are defined with the exception of point 5.13.

Product definition: Vanity and kitchen top is a plain slab prepared by cutting of the main size (rough product) that covers furniture and it is mechanically coupled or by special binders fixed to furniture, of various thickness, size and surface (polished, antique, slate / ardesia, honed, brushed, matt).

The usage: Fabrication of products for vanity and kitchen tops in stone workshop.

Basic characteristics:

Article	Characteristic	Testing method	Declared value	
4.1	Geometric properties (rough product)	EN 14617-16	thickness: ± 1,2 mm flatness: ≤ 4 mm length of slab, ≤ 2 mm width of slab length and width: -20 mm/+ 10 mm, -15 mm/+ 10 mm	
5.2	Terminology and classification	EN 14618	engineered stone, binder – polyester resin, filler – silica sand, 4 product lines: SAND (trade name Gobi, Elegance, Harmonia), GRANITE (trade name Taurus, Sonora, Karpat), MIRRORS (trade name Starlight, Fresh, Brilliant), CRYSTAL (trade name Crystal, Classic, Noble)	
5.3	Appearance	visual	Being made from nature materials the color variations of the product could appear. The product is sorted by producer according to the basic color standards. Slight optical color differences are proper and should be respected. For more details see General Commercial Terms issued by company Technistone, a.s.	
5.5	Reaction to fire	EN 13501-1	B _i	
5.6	Water absorption	EN 14617-1	production line Sand and Mirrors: max. 0,06%, production line Crystal: max. 0,07%, production line Granite: max. 0,09%	
5.6	Density	EN 14617-1	min. 2,10 g/cm ³	
5.7	Flexural strength (bending)	EN 14617-2	production line Sand: min. 40MPa, production line Mirrors: min. 35MPa, production line Granite: min. 30MPa, production line Crystal (Noble): min. 60 MPa, production line Crystal (fine-grained): min. 50MPa, production line Crystal (coarse-grained): min. 30MPa	
5.10	Impact resistance	EN 14617-9	min. 1,7 J (it depends on thickness of slab)	
5.11	Chemical resistance	EN 14617-10	class C4	
5.13	Electrical resistance	EN 14617-13	N/A
